

**Super-Max Extractor Crane 4•5•6•7•8 m
D.100/125/160/200 mm**

The King of large Areas

Super-Max Extractor Crane is the optimal solution when you need to cover large work areas. It is not just a stretched extractor arm. Two ball-bearing mounted horizontal arms with disc-brakes give the excellent horizontal manoeuvrability. The external hydraulically suspended parallelogram arms make the hood incredibly easy to move and 100 % stable in all positions.

Free Airflow in the Hose with the support arms outside.

The patented Hood can be angled more than 110°. Pat. Nr. 0 461 574

Plymoth is always a step ahead – but not expensive!
