

LABBE-400 Extractor-Filter System.

Temporary or Stationary Work Stations with Clean Air.

LABBE-400 is a complete and flexible “Plug and Play” Extractor-Filter System. You can have LABBE-400E with one or two Extraction-Arms mounted directly on the top. You can also have a LABBE-400/Kit with 1-3 d.75/100mm Flexa/Chemikus Extraction-Arms for temporary work solutions. The LABBE System will solve your “Health and Safety” problems. Just place it where it is needed and “Plug it in”. The very flexible Flexa/Chemikus Extraction-Arm/Arms will capture Fine Dust and Fume before somebody risks inhaling it. It is easy to mount the arms on the edge of a table with the included table brackets. The contaminated air will be cleaned by the built in HEPA H14 Filter and returned to the premises. All LABBE-400 Extractor-Filters are equipped with 4 Castors with brakes.

Virus and Bacteria Airpurifier.

The LABBE-400 is not just an efficient system for capturing contaminated air directly at the source but also an Airpurifier. It’s HEPA H14(8m²) Filter filtrates Virus/Bacteria with 99.995% efficiency. With its capacity of 400m³/h it will clean all the air 3 times/h in a room which is 10x5x2.5m. It will give less sick leave caused by Colds and Flues.

HEPA H14 (8m²) and Active Carbon Fleece.

The HEPA H14 Filter is equipped with an after-filter of active carbon for filtration of everyday odours. It is easy to change and not expensive.

EC Fan with variable Air Volume.

The Labbe-400 has an EC Fan which can be regulated with the easy to reach control. The air volume can be adjusted from 0-400m³/h. Low noise level and low energy consumption.

LABBE-400. EC/1-Ph./0.178kW/220V/50Hz. HEPA H14(8M ²). AC Fleece. 630mm(H). Cable/Plug.	P-947
