

LABBE-400 Extractor-Filter System for 1-3/d.75/100mm Extraction-Arms.

Temporary or Stationary Work Stations with Clean Air.

The LABBE-400 System will solve your "Health and Safety" problems regarding Clean Air.

It is a "Plug and Play" Extractor-Filter System. The very flexible Flexa/Chemikus Extraction-Arm/Arms will capture Fine Dust and Fume before somebody risks inhaling it (For Extraction-Arms see "Laboratory").

It is easy to mount the Extraction-Arm/Arms on the edge of a table with the included table brackets. Or you can make a hole in the table and mount the Extraction-Arm permanently. Connect the Arms to the inlets on the LABBE-400 with dia.100mm hoses and the system is ready for use. The exhausted air will be cleaned by the built in HEPA H14 Filter and returned to the premises.

You can have a complete LABBE-400/Kit with 1 dia.100mm/1.3m Flexa Extraction-Arm or 2-3 dia.75mm/1.3m Flexa Extraction-Arms. 3m dia.100mm Hose and Hose Clamps for each arm is included.

Virus and Bacteria Airpurifier.

The LABBE-400 is not just a system for capturing contaminated air directly at the source but also an Airpurifier. It's HEPA H14(8m²) Filter filtrates Virus/Bacteria with 99.995% efficiency. With its capacity of 400m³/h it will clean all the air 3 times/h in a 50m² room. Less sick leave caused by Colds and Flues.

Alu-Mesh, HEPA H14 (8m²) and Active Carbon Fleece. The HEPA H14 Filter is equipped with a Prefilter of Alu-Mesh (washable) and an Afterfilter of Active Carbon Fleece, for filtration of everyday odours.

EC Fan with variable Air Volume. The LABBE-400 has an EC Fan which can be regulated with the easy to reach control. The air volume can be adjusted from 0-400m³/h. Low noise level and energy consumption.

LABBE-400. EC/1-ph./178W/220V/50Hz. HEPA H14(8m ²), Alu-Mesh and AC Fleece. 630mm	P-947
