

Labbe-Wall 400: HEPA H14 or Active Carbon.

Compact Unit (mm)
570(H)x470(D)x360(W)

For Worksituations where Dust, Fume and Odours are a Problem.

Labbe-Wall 400 is a complete Filter unit with EC Fan and HEPA H14 or Active Carbon Cartridge. The unit is simple to mount on the wall with included Brackets.

It can be equipped with 1xd.100mm or 2-3xd.75mm Flexa/Chemicus Extraction-Arms. Catches the pollutants before they are inhaled. Perfect for Soldering or Laboratories.

HEPA H14 Version

Labbe-Wall 400 HEPA H14 has a 8m² HEPA Filter with an Alu-Mesh Prefilter (washable) and an Active Carbon Fleece for everyday Odours. It is designed for fine Dust and Fume and has more than 99.995% Efficiency on Micro Particles and Virus/Bacteria.

Active Carbon Version

Labbe-Wall 400 Active Carbon has a Cartridge with 7.5 Ltr. Active Carbon with a Prefilter Fleece. Suitable for: Cleaning/Degreasing/Conservation/Gluing/Bonding/Moulding etc.

EC Motor ~1/220V/178W/50Hz makes it possible to adjust the airvolume from 0-400m³/h.
