

FK-Mesa Junior 0.6/0.9m Backdraft Bench/Low.

FK-Mesa Junior Backdraft Bench/Low with F9 or HEPA H13 Filter is a complete "Plug and Play" workstation for sitting work position. It will solve your "Health and Safety" problems. Perfect for all sorts of Light Welding, Grinding and Soldering. Just place it where it is needed and "Plug it in". Dust and Fume will be extracted backwards and will not be inhaled by the operator. Built in F9 Filter or HEPA H13/W3 Filter (For Stainless Steel) cleans the air and returns it to the premises (Check with Authorities).

Adjustable Table Height and 3 or 4mm thick Table.

The FK-Mesa Filter Bench/Low is as standard Height Adjustable from 0.65-0.8m. Always a Comfortable and Ergonomic work position. There are 2 table sizes: 0.6m(W)x0.7m(D)x3mm and 0.9mx0.7mx4mm. Can be equipped with heavy duty castors (P-956) and Holder for welding gun (P-932).

Side-Shields 400mm High with "Quick Release" for Long Work Pieces.
